Proven Solutions for 2½ ppm Ultra-Low NOx Compliance

The state of California has a long-standing history of stringent NOx emissions regulations driven by a commitment to air quality and environmental sustainability - and the rest of the country isn't far behind. Over the years, these regulations have continually evolved to reduce NOx emissions from industrial sources, challenging companies to find reliable yet innovative solutions.

Oilon's ULN2.5 burner product line stands as a beacon of progress in this landscape; a game-changing advancement in burner technology. The ULN2.5 burner delivers reliable 2½ ppm NOx performance to help meet internally motivated sustainability goals and to help boiler owners comply with current and future emissions requirements. *Trust the experts and contact Nationwide Boiler today for proven 2½ ppm burner and SCR solutions.*

Benefits of the ULN2.5 Burner

Achieves sub 2.5 ppm Ultra Low NOx with Lower Residual O2 and No FGR

No Combustion Air Filters and No FGR Required

Reduced Electrical Consumption Due To Smaller Blower Motor

Operates on Typical Natural Gas Pressures

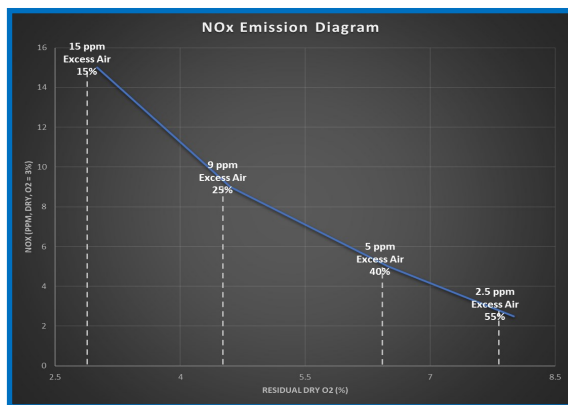

Fully Compatible with Industry Standard Controls

UL Approved as an Ultra Low NOx Burner Package

Standard 5-year Warranty on Burner Head

In-Stock & Expedited Delivery Available Complete Burners and Parts Staged in the U.S.

Ongoing Service & Support by Nationwide Boiler, Oilon, and Our Team of Regional Partners
